

Code With Rishi Camp Syllabus

(Summer 2023)

Information: This year's camps will be completely virtual via Microsoft Teams. Though you do need a laptop or tablet to participate in a camp, you do not need the Microsoft Teams account or app. The meeting times will be chosen from your sign-up response. I will send out the meeting link 1-2 hours before the first day. Please make sure that your child joins at the specified time. If you have any questions, you can email me at rishi_tutor@outlook.com.

Camps: This year, I will be hosting three camps: Beginning Coding with Code.org (for Grades 2-4), Advanced Scratch Programming (for Grades 3-5), and Introduction to Artificial Intelligence (for Grades 2-5). For more information about each of these camps, visit the camps section of my website: <https://www.codewithrishi.krishnamurthy.tech/camps>. You can sign up for these camps [using this link](#). Please make sure to create an account if needed based on the camp description before coming to the camp.
